JOB MATCH CHALLENGE

Who fits the job?

Interactive online activity for intermediate job-ad terminology

HR RECRUITER SIMULATION

5 JOB ADS × 5 CANDIDATES

Today's Mission

Read the job ads and candidate portfolios. Match each candidate to the most suitable job, then justify your answer using evidence and terminology.

Learning Focus

Students practise reading real-world job ads using intermediate workplace terminology.

1 Identify key terminology

Find terms such as remuneration, KPI, cold call, lead generation and probation period.

2 Compare evidence

Match job requirements with candidate qualifications, experience, skills and attributes.

3 Justify clearly

Explain the decision using job ad evidence and portfolio evidence.

Students are not memorising terms only — they are using the terms to make a hiring decision.

This supports reading comprehension, vocabulary, critical thinking, communication and justification skills.

Intermediate Terminology Warm-up

Quickly review these terms before the matching activity.

Remuneration	Total salary / pay package	**Cold call**	Contacting a new potential customer
KPI	Work target to achieve	**Lead generation**	Finding potential customers
B2B / B2C	Business-to-business / business-to-customer	**Client servicing**	Supporting and maintaining clients
Ad hoc tasks	Extra tasks given when needed	**Probation period**	Trial working period
Fast-paced	Busy workplace that needs quick action	**Career advancement**	Opportunity to grow in career

Mini-check: Which term is about money? Which term is about sales task? Which term is about work target?

Activity Materials
